Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 12-18, and 25-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Roll et al (5,388,174).

The Roll et al reference discloses in figure 6, an apparatus for aligning one or waveguides to one or more optical devices, comprising:

Art Unit: 2874

- a carrier (37) having one or more through holes (41), the carrier being adapted to receive the one or more waveguides (32);

- one or more plugs (40, 42), each of which is sized to be received in one or more of the through holes (41, 43).

With regard to claims 12-18, and 25-26, the Roll et al reference discloses all the claimed invention (Fig. 6, col. 2, lines 6-12; col. 4, lines 25-28).

Allowable Subject Matter

5. Claims 19-24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The Roll et al reference does not disclose the apparatus, wherein the carrier is transparent to ultraviolet light, as claims in claim 19; or the carrier is made from a ceramic or glass material, as discloses in claim 20; or the carrier is made from fused silica or Pyrex, as claimed in claim 21.

With regard to claims 22-24, the Roll et al reference does not disclose the limitations of these claims.

Claims 1-11, and 27-30 are allowed, since the Roll et al reference does not disclose the limitations of these claims.
